WALL & VITRIFIED

AT THE CENTER OF DESIGN

Designed by Bluegress, the showroom is an art gallery where ceramic surfaces are displayed in all their beauty, aesthetic, and technological excellence, an ideal setting for the work and meetings of architects, interior designers, and end users.

Boost Your Home

Boost World is both an assortment of collections and a style project that combines autonomous collections that are similar in tone and application. Their ability to "speak the same language" and coexist in harmony offers an extraordinary creative tool that can breathe life into contemporary architecture and interior design.

The future with new eyes

The wide variety of modular formats guarantees maximum freedom of expression and allows you to adapt the Boost World collections to any interior or exterior project. The selection ranges from large collection measuring 1200x1800mm to the most classic formats, and allows coordinated furnishing solutions for floors and walls, even a total-look style.

A complete range for any architectural and design need

The large sizes offer an aesthetic and compositional potential capable of interpreting the essence of each project: from wall and floor coverings to furnishing elements (bathroom or kitchen counters, work tops, washbasins, and tables) for residential and commercial environments, with both indoor and outdoor applications.
